THE GAME

The fun in **WHEEL OF FORTUNE** is to earn money by spinning the *Wheel* and solving (finding the answer to) a word puzzle on the Board. The player with the most money after four rounds is the winner.

GAME PARTS

1 ***WHEEL OF FORTUNE Spinner Wheel***—Divided into 24 spaces made up of different dollar amounts and spaces such as: *Lose a Turn, Bankrupt* and *Free Spin.*

1 ***WHEEL OF FORTUNE Puzzle Board***—Divided into 3 rows, with each row having 11 squares. Each square has a sliding blue cover. Squares are numbered from 1 to 33.

24 ***Puzzle Cards***—Each card has four word puzzles. Words used in each puzzle are hidden by other letters to make it hard to solve a puzzle without using the Puzzle Board.

10 ***Free Spin Tokens***—Players earn these on the wheel.

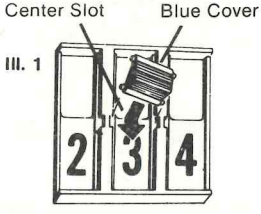
Play Money—Divided into $500, $200 and $100 bills.

Alphabet Card and Crayon—Used to keep track of letters called out by players in each round.

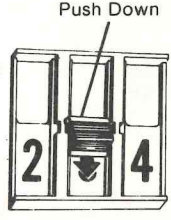
Instruction Book—With both puzzle answers and letter charts that tell how often letters are used. **Do not look at these pages until you have to.**

BUILDING THE PUZZLE BOARD

1. Find the Puzzle Board Frame, the 33 blue covers, and the legs. Carefully put one end of a blue cover into the center slot of one of the spaces on the Puzzle Board Frame. The two tabs should slide into the track (see ill. 1).
2. Keep sliding the cover down with care so that the other end slips into place (see ill. 2). If a blue cover does not fit well, try another in its place. Do this with all 33 blue covers.

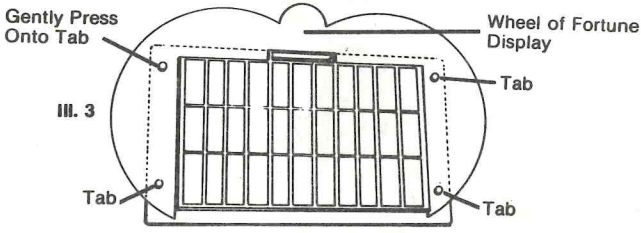


III. 1



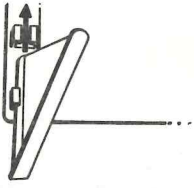
III. 2

3. Carefully press the Wheel of Fortune Display onto the four tabs on the front of the Puzzle Board Frame (see ill. 3).



Ill. 3

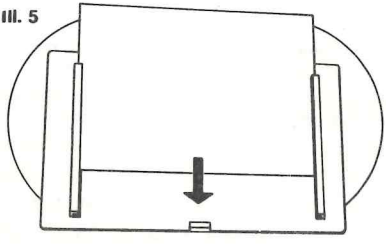
4. Turn the Puzzle Board Frame over and, from the bottom, slide each leg into place (see ill. 4).



Ill. 4

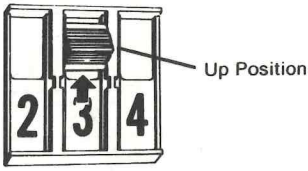
5. Pick up the solid blank card. Slide it between the slots in the back of the Puzzle Board Frame (see ill. 5). This card will hide the puzzles on the back of the Puzzle Cards used in the game. It is now part of your Puzzle Board and should not have to be removed. Your Puzzle Board is now finished!

Ill. 5



Before going on, and before the start of each and every round of WHEEL OF FORTUNE, make sure that all of the blue covers are *UP*. This will hide the puzzle answer from the players (see ill. 6).

Ill. 6



PUZZLE CARDS

Each Puzzle Card has four word puzzles. There are two on one side and two on the other.

Puzzles can be a well-known phrase (like "Home Sweet Home"), a place, a person (real or make believe), a title, or a thing.

Since one game is made up of four rounds, one Puzzle Card may be used for each game. Or, if you'd like, you may use different Puzzle Cards for each round. You decide!

Pick any one of the Puzzle Cards and, *with the blue covers **UP**,* slide it into the space between the blank card and the back of the Puzzle Board Frame.

When you are done with a round, you may remove the Puzzle Card, turn it upside down, and put it back into the Puzzle Board Frame for the next round. **Remember to move all of the blue covers UP before putting any Puzzle Card into the Puzzle Board.**

GETTING READY

Put the Puzzle Board on a table or other hard, flat surface. Put the Spinner Wheel where all players can reach it.

The "Banker"

Pick one player to be the "Banker". He or she will be in charge of giving the money to players after they call out a letter that is in the word puzzle.

The "Host"

Pick one player to be the "Host". He or she will be in charge of looking at the letter charts in this book. The "Host" has four jobs:

1. Check to see if letters called out by the players are part of the puzzle.
2. Check to see how many times each letter is in the puzzle.
3. Check to see where the letters are on the Puzzle Board.
4. Mark off the letters on the Alphabet Chart as they are used in a round.

Who Goes First?
Each player spins the Wheel. The player who spins the highest dollar amount goes first, and the player to his or her *left* goes next.

THE PUZZLE BOARD
Before the first player spins the Wheel, all players should look at the Puzzle Board for:

Puzzle Type: Is the puzzle a phrase, title, person or thing?

Puzzle Number: The "Host" will use this number to check letters on the letter frequency charts in this book.

Black Lines: Once a Puzzle Card has been placed in the Puzzle Board, you will be able to find out where letters are if you look for the black lines below the sliding blue covers. They will also tell you how many words are in the puzzle.

The black lines under the blue covers are the only ones used in the round you are playing.

PLAYING

Spin the Wheel
The first player spins the wheel. The spinner must go around the wheel *at least once* to be a good spin. If the spinner stops on a line between two spaces, the player spins again.

Name A Letter
If the spinner stops on a dollar amount, the first player will be able to call out a letter he or she thinks is in the puzzle. **This letter must be a consonant.** Vowels may only be bought from the banker. (Vowels—the letters a, e, i, o, and u) (Consonants—all the other letters of the alphabet)

"Host" Checks The Letter
The "Host" turns to the correct letter chart in this book. Then, he or she finds the puzzle number and reads off the places where the letter is found in the puzzle. (If there is an 0 next to the puzzle number, it means the letter isn't in the puzzle.)

The "Host" should check only the chart for the letter in question. He or she should *NOT* look at any other letters in the chart.

Blue Covers Down
The blue covers over these places on the Puzzle Board are then moved down to show the letter in the puzzle.

"Bank" Pays
If the letter called out by the player is in the puzzle, the player gets the dollar amount shown on the wheel from the "Bank".

If the letter is in the puzzle more than once, the dollar amount on the wheel is multiplied by the number of times the letter appears. This dollar amount is given to the player by the "Bank".

Example
Suppose you are playing puzzle #7. This may be a five word phrase. Player one spins the wheel and the spinner stops on $400. Player one then says, "is there a B?" The "Host" flips to the letter chart for the letter B and looks next to #7. There, the "Host" finds "4-9-16". This means that the letter B is in the puzzle three times. It's under the blue covers 4, 9, and 16 on the Puzzle board. These covers are moved down, and player one gets $1200 from the "Banker"—$400 for each time the letter B was used. The "Host" then marks off the letter B on the Alphabet Card using the crayon.

When Does The Next Player Go?
A player keeps spinning the wheel and asking for letters until he or she:

*asks for a letter not in the puzzle,
*asks for a letter already shown in the puzzle,
*spins Lose A Turn or Bankrupt on the Wheel,
*asks for a vowel without buying it,
*buys a vowel not in the puzzle,
*makes a wrong guess when trying to solve the puzzle.

If any of these things happen, the player's turn ends. Then the next player takes his or her turn.

Choices
Each player has a choice when his or her turn comes. He or she can:

*Spin the Wheel *Buy a vowel *Solve the puzzle

***Spinning the Wheel**
If a player wants to spin the Wheel, he or she does so just like the first player did.

He or she spins the Wheel, and then calls out a letter. If the letter is in the puzzle, he or she is then paid by the "Banker". *This rule changes if a player spins Lose A Turn, Bankrupt, or Free Spin.*

Lose A Turn: If a player spins Lose A Turn, he or she ends his or her turn, ***AND** loses his or her next turn.*

Bankrupt: If a player spins Bankrupt, he or she ends his or her turn and gives to the "Banker" any money won so far in this round.

Free Spin: If a player spins Free Spin, he or she takes a Free Spin Token and takes another turn.

A player may use a Free Spin Token at any point in the round when he or she picks a letter not in the puzzle, spins Lose A Turn, or spins Bankrupt. If the player spins Bankrupt, he or she must still give all of the money won so far in that round back to the "Bank".

A player should tell the other players when he or she is going to use a Free Spin Token before he or she does so.

***Buying a Vowel**
A player may buy a vowel during his or her turn if he or she has at least $200. The $200 is paid to the "Bank" before the "Host" checks to see if the vowel is in the puzzle.

If the vowel is in the puzzle, the player may keep playing. If the vowel is NOT in the puzzle, the player ends his or her turn. If the vowel is in the puzzle more than once, it still costs only $200. The player does not get the $200 back.

***Solving the Puzzle**
Many players will keep asking for letters even after the answer to the puzzle is known so that they can win more money. A player should tell the other players when he or she is ready to solve the puzzle.

After a player gives his or her answer to the puzzle, only that player should check the **WHEEL OF FORTUNE** solutions which appear in the back of this book. The player should find the number of the puzzle and quickly look at the correct answer before putting the book down.

Did I Win?
If the player's answer is correct *in every way,* (word order as well) the player wins and the round is over. All the blue covers above the black lines are lowered to show the whole puzzle.

If the player's answer does not match the puzzle solution *in every way,* that player loses all of his or her money in that round, and is out of the round. The other players keep playing until one of them wins or until all players give up.

Who Keeps The Money From This Round?
When the round ends, only the player who has solved the puzzle may keep his or her money won *in that round.* All other players must return any money won in that round to the "Bank".

Players may keep their Free Spin Tokens until the game is over. These tokens may be used at any time in a player's turn.

Money won by solving a puzzle in a round of WHEEL OF FORTUNE should be kept in its own pile. That way, it will not get mixed with money that must be given back to the "Bank" in a round someone else wins.

WINNING THE GAME
After four rounds, the player with the most money is the winner!

TIME ALLOWED
In general, players should take no more than five seconds to ask for a letter and no more than 10 seconds to solve a puzzle.

OTHER RULES

1. If a player wins a round with less than $200, the "Banker" gives the player the money that he or she needs to have $200.
2. If a player adds "The" to a puzzle where it doesn't belong, he or she is out of the round.
3. If a player begins to solve a puzzle and makes a mistake, he or she must change the mistake before the whole answer is given.
